

Mini Crawlers

Used Mini Crawler Elk Grove - Our various programs for Mobile Crane Operation are meant for experienced operators who need certification or re-certification, and for inexperienced people who are searching for their very first job as an operator of a crane. Business demand for crane operators who are certified is high all around the country. Positions for crane operators are high because of their high rates of pay. Operators of cranes are among the highest paid of whichever operator of heavy machinery. Our Crane Training Schools include instruction and training for different mobile cranes. Course content consists of Crane Set-up, Wire Rope, Load Dynamics, Lift Planning, Signaling, Load Charts and Rigging. The Crane Training School program is best for operators, riggers and supervisors. Course materials comprise a manual and informative hand-outs. The safety instruction manual which is illustrated features 100 to 250 pages, depending on the course, of important and helpful material. Course materials include load charts and load chart exercises for the crane with which the trainee is working. Hands-On Safety Training would take up over half of the course curriculum. The practical training section is the most helpful method to developing and improving personal skill levels. Just certified journeyman crane instructors are chosen to teach the courses. Our instructors possess numerous years of experience in the business. Optional testing mechanisms are offered for all of our courses. Students would normally write tests both prior to and following training. A test for skills is normally administered for programs that comprise H.O.S.T. People training will be graded and tested. We provide certified training programs for the following cranes: Fixed and Swing Cab Mobile Hydraulic Cranes; Lattice Boom/Crawler Cranes; Rigging / Signalperson Training and Certification; Articulated Boom / Knuckleboom Cranes; Testing & Certification; and In-The-Seat Training. As the new industry requirements surface, the industry standards of practice also change. The industry sees constant updates to legislation and regulations, in addition to technology and equipment improvements. Industry data collection and analysis detect changing trends. Members maintain the advantage of managing their certifications and training programs. Mobile device alerts keep members ahead of personal and workplace safety news.
